

POLITICAL STUDIES

A LEVEL

SUMMER ASSIGNMENT:

In the Politics A Level course you will be studying:

Tasks

- British politics
- Political ideas
- Global politics

The first question we will be examining is how democratic is the UK?

In order for us to explore this you need to be following politics in the news generally. We will be starting the course with a discussion of current political issues.

This means you need to find two news sources, e.g. newspaper article, podcast etc, which have informed you about current political issues. At least one of these should relate to democracy in the UK.

When you have identified two news items you need to produce a brief summary of the relevant issues and be prepared to discuss them in groups. We are particularly interested in your views on the issues.
